

East Regional Time Sensitive Emergency (TSE) Committee

Location Lost Rivers Medical Center

Date: February 25, 2016

Meeting Minutes

Present: Attendees: Alan Brower, Brad Clements, Stefanie Magee, Ed Schauster, Doug Kinney, Jackie O'Connell, Bob Foster, Mike Jenkins, Brian O'Byrne, Jami Thomas, Josie Magee Phone: Sandra Woolstenhume, Eric Day, Philip Ashcraft, Nicole Noltensmeyer

Next meeting: March 17, 2016 10:00-1200 at the Eastern Idaho Public Health District, 1250 Hollipark Dr., Idaho Falls.

I. State Committee Update

Dr. O'Byrne gave an update about what was discussed at the State TSE meeting this month.

II. Vice Chair

We have had a resignation for the region 6 vice chair. We will vote on a vice-chair next meeting. The floor was opened to discussion for candidates. We will ask for candidates and vote at the next meeting.

III. PI Committee Update

Stefanie Magee presented a pediatric case for review with all patient identifiers deleted.

Trauma case review data. The committee is working on the forms for each agency to use to put together case review. They are also working on how to assign numbers for identification of cases and which details to include in each report.

There has been discussion at the state level for having standards for PI that are constant throughout the State. Each region may also have specific items that are unique to their region.

The committee is looking for common denominators in cases that need to be addressed. If the same issues keep coming up is it time to find solution?

An EMS Collaboration Meeting was hosted and held at EIRMC. This meeting included case reviews with the agencies. The meeting was developed as an open forum to discuss cases and issues. At this meeting a QRU member said that he didn't see any value in the QRU's attending TSE because it was for the big players. Melonie assured him that his voice was important.

IV. New Business

Do we want to rotate the meetings? Do we still want to coordinate our meeting the Eastern Idaho Healthcare Coalition meeting? We need to standardize the meeting time and day. The second Thursday at 1300 was suggested and we could rotate venues.

Our next meeting will be 10-12 on March 17th following the Eastern Idaho Healthcare Coalition Meeting Then April 14, 1-3 at Teton Valley Hospital.

We discussed Priority 1, 2 and 3. Both Butte County and Teton County have handed out the Priority cards to their EMS agencies. EIRMC will continue to use Full Trauma and Partial Trauma but they will educate the ED as to how Full and Partial fit into the Priority wording. It was suggested that the patient report will help the hospital decide which activation to call but the EMS agency will be giving Priority 1-3.

Trauma activations arriving POV are not considered a trauma activation. Outreach committee needs to educate areas that a call needs to be made by the EMS, Law enforcement or dispatch in order for there to be trauma activation.

V. Adjourn

Meeting adjourned at 1430.
